2000 Annual Report

Canada Dominion Resources Limited Partnership VI

Highlights

- Canada Dominion Resources Limited Partnership VI's public offering of securities closed December 6, 2000 raising gross proceeds of $27,500,000.
- Net proceeds of the offering were fully invested in flow-through shares of twenty-seven Canadian resource companies as of December 31, 2000. The tax benefits of these investments and other income tax deductions amounting to $22.56 per unit in the aggregate have been allocated to Unitholders as at December 31, 2000.
- The portfolio is comprised of companies such as Benson Petroleum Ltd., Compton Petroleum Corporation, Goldcorp Inc., Ketch Energy Ltd. and SouthernEra Resources Limited.

Canada Dominion Resources Limited Partnership VI

Canada Dominion Resources Limited Partnership VI provides an opportunity for Canadian investors to participate in the resource sector while enjoying significant tax benefits. Our public offering in December of 2000 raised $27.5 million from more than 1,200 investors nationwide. Canada Dominion Resources Group currently manages over $140 million in resource assets.

The Partnership's primary business mission is to increase the value of its resource portfolio assets under management and increase value for unitholders.

Our principal objective is to achieve long-term capital appreciation through investment in a professionally managed, diversified portfolio of equity securities of oil and gas and mining companies. One of Canada's most successful resource portfolio managers, Normand E. Lamarche, manages the investments for the Partnership. Our decision to retain Mr. Lamarche and his company Tuscarora Capital Inc. was based on their experience, track record and reputation in the resource sector.

Flow-through shares are common shares of Canadian resource companies issued to finance the exploration and development of resource properties. To encourage investment in the exploration and development programs of Canadian resource companies, the federal government allows exploration and development expenses by these companies to be "flowed-through" to the investor and deducted for tax purposes.

Letter to Limited Partners

I am pleased to present the financial statements for Canada Dominion Resources Limited Partnership VI for the period ending December 31, 2000 and to report on our progress.

Investment Objective

Our investment objective is to provide our investors with long-term capital appreciation by investing in a diversified portfolio of companies engaged in exploration and development in the oil and gas and mining sectors. Tuscarora Capital Inc., the Partnership's investment advisor, continues to manage the portfolio with this long-term approach. Currently, the portfolio is focused on the energy sector with a strong weighting to gas producers.

Flow-Through Shares

The initial proceeds of the Partnership were invested exclusively in flow-through shares of Canadian resource companies. This provided significant tax benefits as a result of the Partnership's ability to "flow-through" Canadian Exploration Expenses to Limited Partners.

The Portfolio

During 2000 commodity prices experienced strong reversals with crude oil prices almost tripling from their lows of $10 and natural gas pricing continuing to be very firm. Share prices began to increase through the year but did not match the gains in commodity prices. It appeared that investors were reacting with disbelief to the sustainability of commodity prices and were treating commodity price increases as an aberration. In addition, the investment fervor for anything that implied technology negatively impacted the flow of funds into the resource areas. The impact of the above resulted in the lowest resource sector weightings in TSE history. In spite of the above the companies that the fund invested in performed very well with many experiencing record cash flows and earning results.

For regular updates on our portfolio, please visit our website at www.canadadominion.com.

The Outlook

In each and every business cycle, there are familiar elements that repeat themselves time and time again. However, each cycle is unique and the current disconnect between share prices and the business fundamentals of the oil and gas industry will be this cycle's legacy.

Predicting business trends and investment strategies is at best a precarious proposition. It is, however, an age-old truth that capital investment seeks a return fundamentally based upon profit. The oil and gas industry is by its very nature cyclical but profitability in the oil and gas industry is here, and based on current supply demand fundamentals, the future has never looked brighter.

Drilling activity has been very strong as oil and gas exploration companies continue their search for more reserves and production. The outlook for 2001 is for a further 10% increase in drilling activity versus 2000 which was already at record levels. Well productivity is declining which partly explains the high activity levels but high returns from strong commodity prices are also a key driver of activity.

Commodity prices would appear to be firm through the year as the ongoing power shortage in the U.S. is driving natural gas demand to even higher levels. The crude oil price is reacting to the general slowdown in economic activity worldwide. It has been buoyed by OPEC's reduction in supply however ultimately it will be driven by natural demand forces.

The Opportunity

What does all this mean? It means investors have the opportunity to invest in a sector where oil and gas companies are enjoying their best business fundamentals in decades. The environment is one of increasing demand and decreasing supply of crude oil and natural gas coupled with reasonable share price ratios to earnings and cash flows.

At the time of writing, oil prices continue to be strong. Natural gas prices are very healthy. Most other resource commodities such as nickel, copper and platinum are at low inventory levels reflecting both declining supplies and a growing perception that the emerging economies are recovering. While stock prices have rebounded from their lows, the existing commodity price environment has turned our investment portfolio into growth companies again. The convergence of the electricity and fuel markets is a very powerful force which is not yet fully understood in the market but is a critical component of the demand function for energy. Share prices in the resource sector continue to be under valued by all historic measures. We continue to expect stock market multiples to expand during the course of 2001 to reflect the growth environment and we are excited about the growth opportunity for our portfolio in the year ahead.

Success

Canada Dominion Resources Group

Canada Dominion Resources Group ("CDRG") has raised more than $140 million on behalf of more than 8,000 Canadian retail investors. In addition to Canada Dominion Resources Limited Partnership VI, CDRG manages Canada Dominion Resources Limited Partnership III, IV, and V, other resource sector flow-through limited partnerships, as well as the StrategicNova Canada Dominion Resource Fund Ltd.

CDRG is striving to set new standards in professional portfolio management and investment criteria for Canadian flow-through shares.

CDRG's management team is headed by James A. Hutton, who has over 16 years investment-banking experience, the last 10 years principally involved in structured finance transactions with a focus on the resource sector.

CDRG believes the current market offers investors an excellent opportunity to make high quality flow-through investments. Such investments are made on a tax-advantaged basis and when combined with low price to cash flow multiples in the resource market, the potential exists for a significant return on investment.

CDRG is owned by Hutton Capital Corporation and StrategicNova Inc, a partner of Services Financier CDPQ Inc.

More information about Canada Dominion and its partnerships can be found on our internet website at www.canadadominion.com.

The Investment Advisor

Tuscarora Capital Inc.

Tuscarora Capital Inc has been retained by CDRG to manage the Canada Dominion Resources Limited Partnership VI portfolio.

Tuscarora has many years of experience investing in the Canadian oil and gas and mining sectors and has established working relationships with a wide range of resource companies. Tuscarora expects to utilize its extensive contacts in the Canadian resource sector as well as its contacts in the investment dealer and investment management communities to identify investment opportunities consistent with the Partnership's investment strategies and guidelines.

Normand Lamarche is the principal investment strategist for the Partnership, responsible for developing and refining the Partnership's investment strategy, implementing the strategy on a day-to-day basis, and is the Partnership's principal portfolio analyst.

Mr. Lamarche is Chairman of Tuscarora and is the senior portfolio manager of Tuscarora. He has been engaged in the business of providing investment advisory services and portfolio management since 1987. Mr. Lamarche was a portfolio manager with Altamira Management Ltd. from August 1987 to March 1995. From February 1, 1991 to January 31, 1995, Mr. Lamarche was the manager of both the Altamira Resource Fund, a mutual fund with an investment portfolio consisting of oil and gas, mining, pulp and paper, and forestry and related resource business issuers, similar to those expected to comprise the investment portfolio of the Partnership, and the Orbitex Resource Fund. From January 1, 1995 to January 31, 1995 he managed Altamira's AltaFund Investment Corp. and during that period was also responsible for the equity component of the Altamira Balanced Fund. Mr. Lamarche left Altamira in March 1995 for a one-year sabbatical before establishing Tuscarora with Mr. Selke in 1996. Mr. Lamarche holds a Bachelor of Arts degree in economics from Carleton University and is a Chartered Financial Analyst.

Gary Selke is President and Director of Tuscarora Capital Inc. From 1981 until 1996, Mr. Selke was employed by RBC Dominion Securities Inc. and its predecessor firms. During his employ, he served in the investment banking department where he concentrated on public and private financings for three years, debt restructurings for two years, became a member of the firm's equity syndication area for three years, served in the capital markets group for two years, and headed the firm's corporate team in the United States and managed the securitization team. In 1993, Mr. Selke joined the RBC Dominion Securities Institutional Equity Department in the sales area where he concentrated his activities until 1996, serving all types of institutional clientele including mutual funds, pension clientele, life insurance companies, investment counsellors, and high net worth money managers. Mr. Selke formed Tuscarora in 1996 with Mr. Lamarche. Mr. Selke holds a Bachelor of Commerce degree from the University of Toronto and is a Chartered Accountant.

Investment Portfolio

The following companies were held in the portfolio on December 31, 2000. Along with a brief description, we have provided the companies' ticker symbols and exchanges.

Agnico-Eagle Mines Ltd. (AGE:TSE)

Agnico-Eagle Mines Ltd. is a gold producer. The company operates in northwestern Quebec and conducts exploration and development activities in Quebec and Ontario. Agnico-Eagle's gold production is primarily from underground mining operations.

Benson Petroleum Ltd. (BEN:TSE)

A junior exploration company. The company explores, acquires, and develops crude oil and natural gas properties in western Canada, primarily Alberta.

Canabrava Diamond Corporation (VNB:CDNX)

Canabrava Diamond Corporation explores for diamonds in Canada and Brazil. The company is also seeking diamond opportunities worldwide.

Canadian Superior Energy Inc. (SNG:CDNX)

Canadian Superior Energy Inc. explores, develops and produces oil and natural gas in Canada and the United States. The company owns resource properties in the provinces of Alberta, Saskatchewan and British Columbia and the state of Wyoming.

Compton Petroleum Corporation (CMT:TSE)

Compton Petroleum Corporation is an exploration and production company. The company explores for, develops and produces oil and gas in western Canada. Compton's interests include the areas of Shekille, Senex, Deep Basin, Rimbey and Vulcan/Gladys, all in Alberta.

Deer Creek Energy Limited (private)

Deer Creek Energy Limited is an oil and gas exploration company which operates in the province of Alberta.

Devlan Exploration Inc. (DXI:TSE)

Devlan Exploration Inc. conducts activities in natural gas and liquids exploration, development and production in western Canada. The company's current exploration and development activities are concentrated on properties in Alberta and the Northwest Territories.

Diamondex Resources Ltd. (DSP:CDNX)

The company is a venture company involved in the evaluation and exploration of mineral properties.

Elk Point Resources Inc. (ELK:TSE)

Elk Point Resources Inc. explores for, produces and markets petroleum and natural gas. The Company's properties are located in the Western Canadian Sedimentary Basin of Canada, and in the Powder River Basin and the San Joaquin Basin of the United States. Elk Point's producing properties are located in the provinces of Alberta and Saskatchewan and in the state of Wyoming.

Energy North Inc. (ENI:TSE)

Energy North Inc. is an oil and gas exploration, development and production company focused on the Western Canadian Sedimentary Basin.

Expatriate Resources Ltd. (EXR:CDNX)

Expatriate Resources Ltd. explores and develops mineral properties. The Company currently holds interests in mineral properties in Canada, and is exploring for precious and base metals in Chile, Argentina and Mexico.

Goldcorp Inc. (G:TSE)

Goldcorp Inc. is a North American gold producer. The company owns a gold mine located in South Dakota, United States and has industrial mineral operations in Saskatchewan. Goldcorp also owns the Red Lake Mine

Hope Bay Gold Corp. (HGC:TSE)
Acquires, explores, and develops mineral properties. The company currently holds interests in properties located in the Nunavut Territory, Quebec and French Guiana. Hope Bay is currently exploring for gold.

International Curator Resources Ltd. (IC:TSE)
International Curator Resources Ltd. mines for minerals. The company operates a copper-cobalt mine in Baja, Mexico and additional metal projects in British Columbia.

Ketch Energy Ltd. (KCH:TSE)
Ketch Energy Ltd. explores and develops natural gas and oil properties in Alberta, British Columbia and Saskatchewan. The Company focuses primarily on the exploration and development of natural gas properties.

Mustang Minerals Corp. (YMU:CDNX)
Mustang Minerals Corp. explores for precious and base metals in Canada and the United States. The company currently mines platinum, palladium, and rhodium in Ontario nad gold copper and silver in Nevada.

Pacific Rodera Ventures Inc. (PRD:CDNX)
Pacific Rodera Ventures Inc. is an oil and gas exploration company. The company operates in the Northwest Territories and in Montana

Platinum Group Metals Limited (Private)
A mining exploration company concentrating its efforts in Ontario.

Richland Petroleum Corporation (RLP:TSE)
Richland Petroleum Corporation is an exploration and development company with oil and gas interests in western Canada and the United States.

Rubicon Minerals Corp. (RMX:CDNX)
Rubicon Minerals Corp. is a mineral exploration company. The company operates in the Red Lake and Timmons camps.

Sharon Energy Ltd. (SHY:CDNX)
Sharon Energy Ltd. is an oil and gas exploration and development company. The company holds various oil and gas interests in Canada, and Colorado, California, Michigan and Wyoming in the United States. Sharon specializes in the application of high-resolution 2-D and 3-D seismic to reduce exploration risk and enhance development opportunity.

SouthernEra Resources Limited (SUF:TSE)
SouthernEra Resources Limited is a diamond exploration and mining company, with its principal interests in Canada, Angola and South Africa.

Tempest Energy Corp. (Private)
A petroleum exploration company which operates in western Canada.

Tikal Resources Corp. (TKZ:TSE)
Tikal Resources Corp. explores for and produces oil and gas in Canada, the United Kingdom and the United States.

Touchstone Petroleum Inc. (TPI:CDNX)
Touchstone Petroleum Inc. develops oil and gas property acquisition opportunities in central and southern Alberta and southern Saskatchewan.

Tri Origin Exploration Ltd. (TOE:TSE)
Tri Origin Exploration Ltd. discovers gold and base metal ore deposits through the exploration of its portfolio of precious and base metal properties in Canada and Australia. The company defines and expands known mineral resources at Australian locations.

Wallbridge Mining Company Limited (WM:TSE)
Wallbridge Mining Company Limited acquires and explores mineral properties. The company currently holds interests in properties located in Ontario and in the United States. Wallbridge is exploring for nickel, copper and platinum elements.

Management's Discussion and Analysis

The Partnership is a Canadian Limited Partnership, and as such all income or losses of the Partnership are allocated to its Unitholders. Canadian Exploration Expenses and Canadian Development Expenses renounced to the Partnership from its investments in "flow-through" shares of Canadian resource companies are allocated to Unitholders of the Partnership.

Assets Of The Partnership

On December 6, 2000, the Partnership received $25.2 million net proceeds from the issuance of Partnership units of which $24.4 million was available for investment in flow-through shares of Canadian resource issuers.

As at December 31, 2000, the Partnership had net assets of $22.5 million, which is a decrease of approximately 10% from the date of closing the financing to year end. The decrease in net asset value ("NAV") is entirely attributable to premiums paid to market prices for the purchase of the flow-through shares comprising the portfolio at year end.

Net Loss

The Partnership recorded a net loss of $2.61 million for the year ended December 31, 2000. There is no comparative figure for 1999 as the Partnership did not commence its operating activities until December 6, 2000, the date of completion of its prospectus offering. The net loss includes a charge of $2.57 million for unrealized depreciation of investments. This charge reflects the decrease in NAV previously described.

Interest and other income of the Partnership primarily consisted of interest income earned on investing the Partnership' surplus cash in interest bearing financial instruments. By the end of the year the Partnership's surplus cash had decreased to $1,016,000. Nominal interest income is expected to be received in 2001 as the portfolio is fully invested and the cash balance on hand at year end will be drawn down to cover operating fees and expenses.

Income Taxes

Deductions available to Limited Partners were approximately $22.56 per Unit for the year ended December 31, 2000.

Investment Activity

Throughout the latter part of the fourth quarter of 2000 the Investment Advisor, on behalf of the Partnership, researched potential investments and entered into agreements with select issuers wherein the Partnership provided financing in exchange for flow-through shares of the issuers. Particular emphasis was placed on ensuring compliance with the requirements for investment in Toronto Stock Exchange listed companies and companies with a market capitalization in excess of $50 million. The Partnership focussed on investing in quality Canadian resource issuers with a weighting to gas producers.

Investing activity in 2001 will likely be nominal as the portfolio was fully invested at year end 2000 and a significant portion of such investments were private placements that have hold periods attached to the securities that are in place until late in 2001.

Liquidity And Future Trading

There currently is no formal market through which Units of the Partnership may be sold, and none is expected to develop until a mutual fund rollover transaction is completed. The General Partner will prepare documents setting forth such a transaction for approval by the Limited Partners.

Auditors' Report

To the Partners of
Canada Dominion Resources Limited Partnership VI

We have audited the statement of net assets of Canada Dominion Resources Limited Partnership VI as at December 31, 2000 and the statements of operations, deficit and changes in net assets for the period from inception on December 30, 1999 to December 31, 2000. These financial statements are the responsibility of the General Partner. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the General Partner, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Partnership as at December 31, 2000 and the results of its operations and the changes in its net assets for the period from inception on December 30, 1999 to December 31, 2000 in accordance with Canadian generally accepted accounting principles.

Notes to Financial Statements

1. Organization of the Limited Partnership

Canada Dominion Resources Limited Partnership VI ("the Partnership") was formed as a limited partnership under the laws of the Province of Ontario on December 30, 1999. The principal purpose of the Partnership is to achieve capital appreciation primarily through investment in equity securities (including flow-through shares) of resource issuers.

The General Partner of the Partnership is Canada Dominion Resources VI Corporation ("the General Partner"). Under the Amended and Restated Limited Partnership Agreement dated November 23, 2000 ("the Limited Partnership Agreement") between the General Partner and each of the limited partners, the General Partner is entitled to a 0.01% beneficial interest in the Partnership. At December 31, 2000, the General Partner held no units in the Partnership.

On December 6, 2000, the Partnership completed an issue 1,100,000 units at $25 per unit for gross proceeds of $27,500,000.

Under the Limited Partnership Agreement, the Partnership will be dissolved on or about May 31, 2002, at which time the net assets are to be distributed to the various limited partners unless an alternative to dissolution is approved by the limited partners. The Limited Partnership Agreement allows the General Partner to propose to the limited partners, at a special meeting of limited partners to be held no later than December 31, 2001, that all units held by the limited partners be exchanged, on a pro-rata basis, for redeemable shares of a mutual fund corporation. Such a proposal would require the approval of both the limited partners and regulatory authorities, and would need to be finalized by May 31, 2002 in order to avoid dissolution of the Partnership.

2. Significant Accounting Policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles and the following is a summary of significant accounting policies followed by the Partnership.

Cash equivalents

Cash equivalents are comprised of highly liquid investments having original terms to maturity of 90 days or less when acquired.

Investments

Investments in publicly traded securities are valued at quoted market value. Investments in private companies are valued at estimated fair value. The difference between market value and average cost, as recorded in the accounts, is described as unrealized appreciation (depreciation) of investments and is included as a separate component of Partners' Equity. The change from year to year is reflected in operations as changes in unrealized appreciation (depreciation) of investments. Average cost is used to determine the gain or loss on investments sold.

Income recognition

The accrual method of recording income and expense is followed, with dividends being recorded on the ex-dividend date.

Unit values

The unit value is calculated as net assets at market value after the General Partner's entitlement divided by the number of units of the Partnership outstanding.

Measurement uncertainty

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Allocation of Partnership income and loss

Income and loss is allocated 99.99% to the Limited Partners and 0.01% to the General Partner.

These financial statements include only the assets, liabilities and operations of the Partnership and do not include other assets and liabilities, including income taxes of the limited partners.

Notes to Financial Statements

3. Expenses of the Partnership

The General Partner is entitled to an annual fee of 2.00% of the Net Asset Value of the Partnership, as defined, which is calculated and paid monthly in arrears.

In respect of each financial year, a performance bonus equal to 20% of the amount by which the Net Asset Value per Unit of the Partnership, as defined, exceeds a threshold increase of 12% will be payable to the General Partner and the investment advisor. For the year ended December 31, 2000 there was no performance bonus payable.

The Partnership is responsible for all costs relating to its administration.

Amounts due to General Partner are non-interest bearing and have no specific terms of repayment.

4. Partners' Equity

The authorized capital of the Partnership consists of an unlimited number of Partnership units. All Partnership units are of the same class with equal rights and privileges, including equal participation in any distribution made by the Partnership and the right to one vote at any meeting of the limited partners.

As at December 31, 2000 there were 1,100,000 Partnership units issued and outstanding as follows:

	Number of units	Price per unit	Amount
Issue of Partnership units,	1,100,004	$ 25	$ 27,500,100
Issue costs	–	–	(2,345,840)
Redemption of Initial Partnership Units	(4)	25	(100)
Balance at December 31, 2000	1,100,000		$25,154,160

Issue costs included $58,850 paid to StrategicNova Funds Management Inc. StrategicNova Funds Management Inc. and the General Partner are companies under common Control.

5. Income Taxes

No provision for income taxes has been recorded in the accompanying financial statements as all income (loss) of the Partnership for the period is allocated to unitholders.

6. Financial Instruments

The carrying values of cash and cash equivalents, accounts payable and accrued liabilities, and due to General Partner approximate their fair values due to the relatively short period to maturity of these instruments.

Schedule of Investments

As at December 31, 2000

Number of Shares	Company	Cost [1]	Market Value
