**December 06, 2011** - Capital gain and business loss estimates for the CDR 2009 and CDR 2010 limited partnerships for the 2011 tax year are listed below. These figures are per unit **estimates only** and may differ substantially from the final amounts reported on tax slips (T-5013A/RL-15) issued to investors in the spring of 2012 for the 2011 tax year.

<b><u>Partnership</u></b>	<b><u>Cusip No.</u></b>	<b><u>Capital Gain Estimate</u></b>	<b><u>Business Loss Estimate</u></b>
CDR 2009	13487M106	\$2.38 (est.)	- \$2.81 (est.)
CDR 2010	13488A101	\$6.83 (est.)	- \$0.94 (est.)

Due to their significant tax incentives, flow-through shares purchased inside a limited partnership carry a low (or zero) adjusted cost base. This results in a capital gain for unitholders should the general partner sell a flow-through share from inside the partnership. The general partner will, on occasion, decrease or eliminate a holding from inside the partnership in order to lock in gains, manage liquidity constraints, or mitigate the impact of deteriorating fundamentals for a particular investment.

CDR 2009 completed its tax-deferred rollover into Dynamic Managed Portfolios Ltd. on January 7, 2011. Unitholders received 1.2780 shares of DMP Resource Class for every unit of CDR 2009. On the date of transfer, the net asset values for CDR 2009 and DMP Resource Class were \$37.78 per unit and \$29.56 per share, respectively. CDR 2009 was subsequently dissolved.

The Canada Dominion Resources Group is a leader in flow-through share finance. To date, Canada Dominion has raised over \$1.2 billion for investment in energy-related ventures on behalf of investors across Canada.
